

Jenzabar Capture™

Bridging Silos of Information to Provide One Version of the “Truth”

Pursuing institutional initiatives can present many challenges, especially when colleagues are not of one mind regarding fundamental data and key performance indices. Jenzabar Capture™ enables executives to monitor the health of the institution with effective, actionable information that everyone can agree upon. These tools provide direct access to critical records through a standard interface with assurance of a common view of retention programs, financial health, fundraising success and regulatory compliance to enhance understanding and cooperation among your institutional leadership.

Building a Data Foundation

Executives often meet to plan and implement the institution’s strategic projects armed with spreadsheets prepared by many different staff members. And often their basic metrics differ, making it difficult to establish an honest operating baseline. Jenzabar Capture applies the concepts, techniques and principals of business intelligence to the strategies and goals of higher education, resulting in a clear view. While businesses have relatively stable key performance indicators (KPIs), higher education institutions have extensive measures, with ever-changing goals, strategies and consumers.

Establish Accountability

Jenzabar Capture starts with a strong transactional reporting environment packaged with Jenzabar’s ERP solutions, providing each user with a view of common metrics. In addition, hundreds of out-of-the-box reports provide institutions with a significant jumpstart on extracting information from newly-implemented Jenzabar systems.

An ad-hoc reporting environment with a strong metadata layer empowers users with on-demand reporting capabilities in an environment that includes user-friendly names and pre-defined table relationships providing:

- Single solution (version of data “truth”) for casual and power users
- Personalized dashboards for informed feedback
- Intuitive self-service access to reliable information
- Guided analysis to aid decision-making

The Jenzabar Capture operational data store provides a common point of extraction and summarization for the Jenzabar CX and EX ERP products. It also serves as a launching pad for storage into the Jenzabar Capture data warehouse.

Improved Decision-Making

The Jenzabar Capture warehouse is an enterprise-wide warehouse solution. Composed of analytical modules, it is optimized for reporting—establishing a credible baseline in an easily accessible environment.

Campus leaders and staff can use this information to understand the accurate assessment of current conditions and guide analysis for informed decisions on future endeavors.

Achieving Institutional Success

When integrated with the Jenzabar EX or CX administrative systems, Jenzabar Capture allows the institution to analyze a wide range of office and project statistics from a single database.

Drawing deeper insights from the extensive metrics that are integral to higher education, Jenzabar Capture enables teams to monitor and assess performance.

With the ultimate goal to recruit and retain the best students, achieve financial health, regulatory compliance and fundraising success, these tools empower executives and staff to achieve key goals and objectives.

Strong Partnerships

Jenzabar's institutional intelligence solution includes Jenzabar Performance RAVES (Reporting, Analytics, Visualization, Executive KPIs and Summarization). Powered by

the IBM® Cognos® suite of reporting tools, our performance-monitoring solution gives executives, department managers and front-line staff access to the data they need to make informed decisions.

Jenzabar offers a comprehensive suite of services to partner with your institution to realize the full value of your data. Our team assists with assessing operations, consolidating data, improving processes and staff knowledge while providing a solid information infrastructure for your future projects.

The Jenzabar® Advantage

In today's competitive world, institutions of higher education need every advantage to achieve their mission and goals—from innovative software to strategic expertise and client-tailored services. Find it all in one place, delivered by a strong technology partner dedicated to your success: that's the Jenzabar advantage. Our family of fully integrated products includes:

- ▶ Award-winning, proven ERP systems
- ▶ Constituent relationship modules & award-winning campus portal
- ▶ Learning management system
- ▶ Retention management solution
- ▶ Institutional intelligence solutions
- ▶ Continuing education systems

Count on Jenzabar for comprehensive solutions that help you manage data throughout the student lifecycle and across the campus. From Admissions to Advancement, we're with you all the way to maximum success.
