

Campus Portal Rollout Services

Make the Most of Your Investment—Optimize Your Campus Portal

Your institution has made a significant investment in a campus portal, with crucial objectives in mind: for instance, building lasting relationships with your students throughout the student lifecycle; building stronger communities among all your constituents; providing efficient, personalized service to your students, faculty, staff, alumni, donors and friends. Whatever your institutional goals may be, Jenzabar is committed to helping you make the most of your portal and ensuring that it will succeed from the start.

Tap into the Full Power of Your Portal

Your campus portal is a truly transformational technology that can help build strong communications across your campus and throughout the student lifecycle, from applicants to alumni. As just one example of Jenzabar's commitment to Total Campus Management™, Jenzabar's Campus Portal Rollout Service is designed to help maximize the effectiveness of your portal—and make sure your institution is ready to realize all of the benefits your portal can deliver.

To help you experience the full potential of your portal, our team of Jenzabar Industry Consultants will work with you throughout the engagement, utilizing a tested process to ensure that your portal delivers all that it has to offer to your campus community.

With our Rollout Service, you can be certain that you have the right team in place to manage your portal, and the proper tools aligned to build community across the campus. As part of the process, we will work with your staff to develop a plan for facilitating campus-wide adoption, with promotional strategies to reach all of your campus constituencies.

We'll Help You Prepare for Success

Our team will help you accomplish the following:

- Identify the team to manage the portal
- Develop strategies to maximize adoption of the portal
- Ensure that the portal complements your .edu site and other Web sites
- Develop plans to promote awareness of the portal both on and off campus

Jenzabar understands that your full participation is essential to your success. Because these goals can only be accomplished with input from the portal's key power users on campus, we will interview a broad range of groups across the campus throughout the process—for example:

- Information Technology
- Marketing and Communications
- Student Affairs
- Admissions
- Students & Faculty
- Business Office
- And more

A Process That Works for You

Although the length of a Campus Portal Rollout engagement may vary based on your needs, every engagement centers around Jenzabar's unique core process. Each of the following elements will be accomplished to ensure that there is a strategic plan behind your portal:

An Award-Winning Portal Solution
